If it is fuel economy your after, then you will be amazed with the results. On average the Agri-Power Series will lower your fuel consumption by 20% per day.

When the Agri-Power is installed, it communicates with your tractor or combines ECM to receive the engine's operational data. With this information, the Agri-Power will provide increased power with improved drivability. This direct communication with the tractors ECM allows the Agri-Power to also increase fuel economy and towing capabilities under any type of Agriculture condition.

The Agri-Power series in a fully Plug and Play Module with in cab adjustability. TS Performance has been taking diesel performance to a higher level in the truck market and producing quality products for over 7 years. The Agri-Power series is the first of many more agriculture applications to come from TS Performance. For information contact TS Performance, 5425 Nashville Road., BowlingGreen, KY 42101. 270-746-9999 or Visit us on the web at WWW.TSPERFORMANCE.COM.
