670

AGRI-POWER

5425 Nashville Road
Bowling Green, KY
42101

introduces

"The Agri-Power Series" for your tractor or combine!

- Additional Power Increases
- Up to 30% increase for the CASE IH Applications
- 30% increase for the 20 Series John Deere and Caterpillar Challenger applications.

When the Agri-Power is installed, it communicates with your tractor or combines ECM to receive the engine's operational data. With this information, the Agri-Power will provide increased power with improved drivability. This direct communication with the tractors ECM allows the Agri-Power to also increase fuel economy and towing capabilities under any type of Agriculture condition.

- Lowered Fuel Consumption
On average, the Agri-Power series will lower your fuel consumption by 20% per day!
- Simple Installation
The Agri-Power series is fully plug & play and features in-cab adjustability!
